

## Travel and Capture the EOS way

With professional photographer Teoh Peng Kee

If you love travel photography, then this book will inspire you to excel further as an enthusiast in this challenging subject. The images found within this book are designed to inspire and encourage readers to think out of the box the next time they are going out on a shoot. Unlike many other coffee table books, this book gets you more than just impressive photos, it provides you essential shooting tips to give readers a better understanding of

essential skills, arranged in an easy to understand manner.

Each photo is accompanied by a detailed listing of the setting and equipment used, allowing readers to have an idea of the settings used to capture the scenes and subject matter in the book. Every topic also comes with a preparation list and tips to learn and understand how to recreate similar images with practice. This will be a great book to upgrade your travel photography skills.

### ABOUT THE AUTHOR

Teoh Peng Kee has more than 18 years of experience promoting the EOS system for Canon Malaysia and Canon SSEA regional office. He was also selected as the EOS Master Canon Asia Pacific and as a speaker for the National and South South East Asia and India continent EOS Pro Seminar. His nature of work enables him to travel and visit various places that have a rich cultural background and meet different people on his journeys.

Teoh Peng Kee is known as the "Walking Dictionary" for the EOS System among the photography community and industry. He often shares his knowledge, skills and experience with others at various workshops and seminars and he also acts as the chief imaging consultant at Canon EOS Boutique Subang Jaya in Selangor, Malaysia.
